操作手册

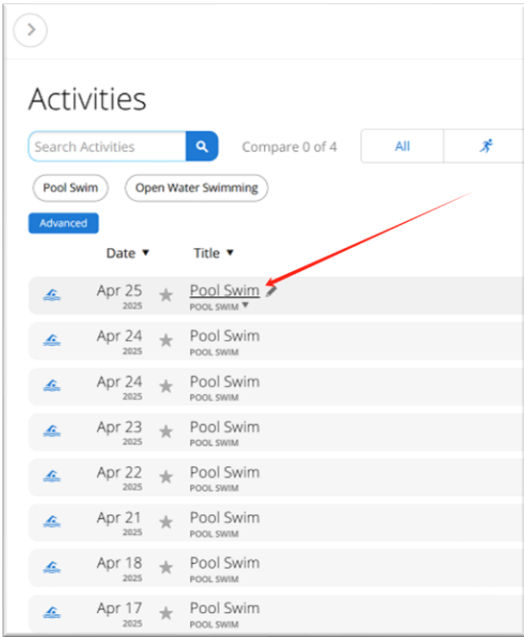

1# Download Raw Activity Data

(Garmin Connect User)

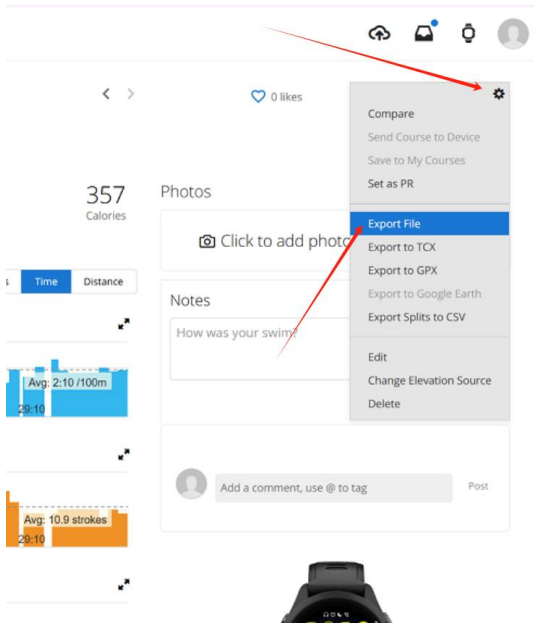

1. Connect to Garmin Connect and locate activity logs

2. Access activity details

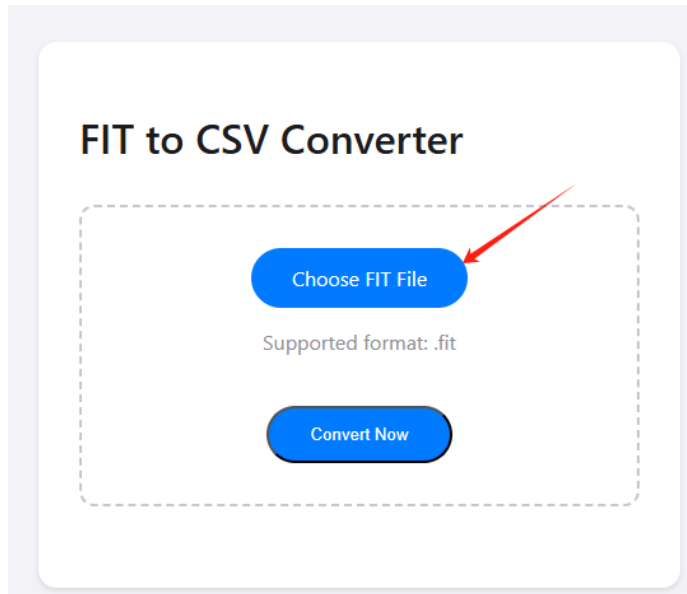

3. Export/download raw activity data

2# FIT to CSV Data Conversion

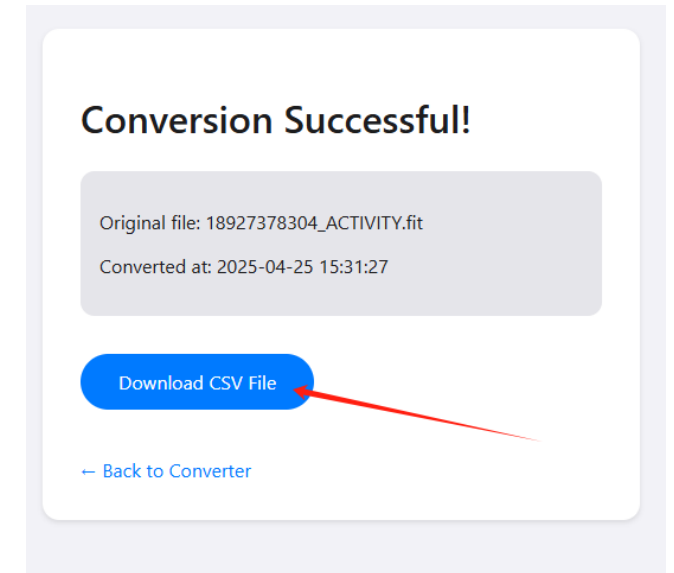

1. Log in to https://bh4hbc.xin/fit_converter/ and select a *.fit file from your local drive.

2. Click "Convert Now" to convert the data format.

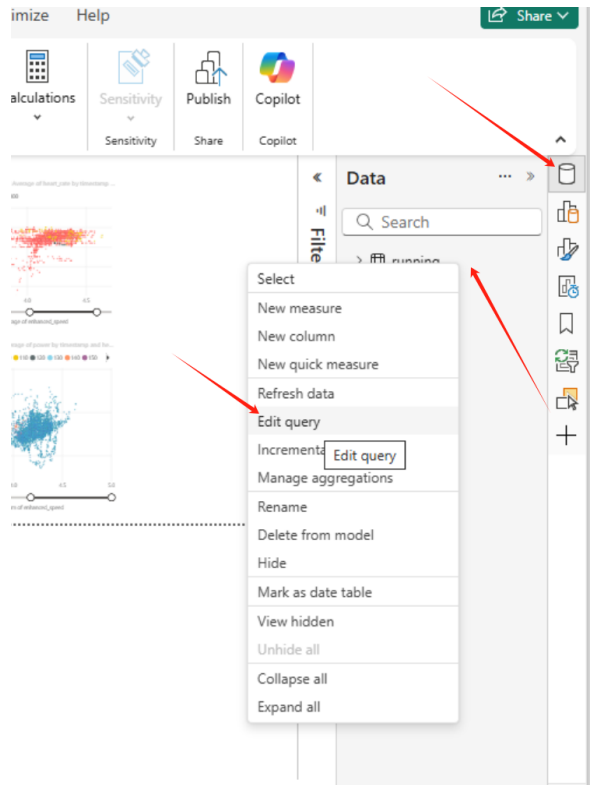

3. After the "Successful!" message appears, click "Download CSV" to save the file.

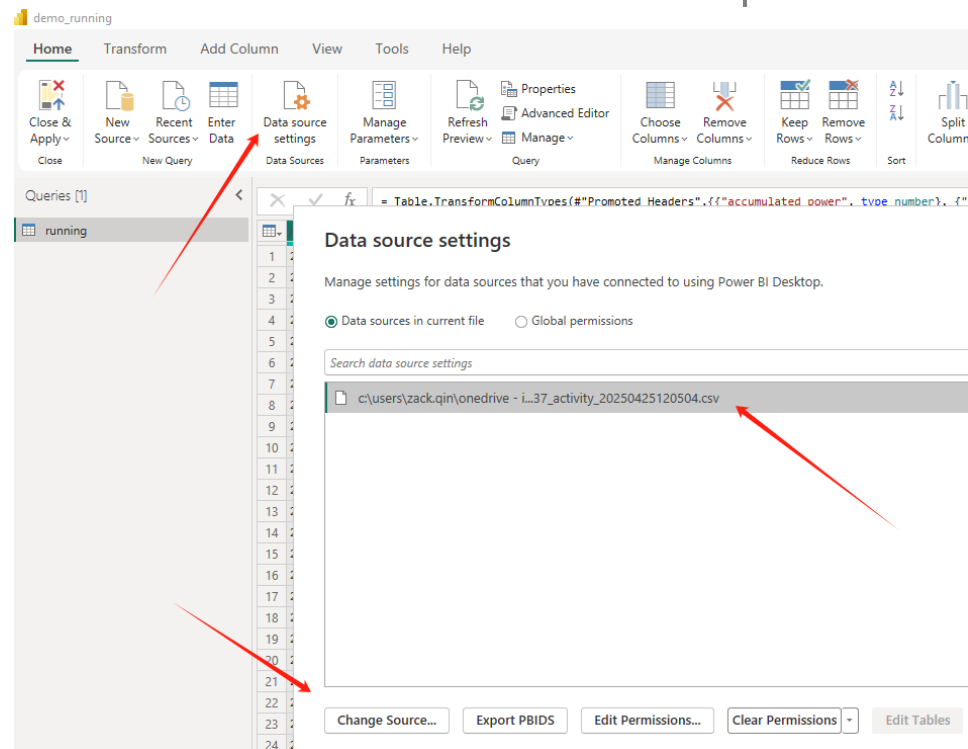

3# Load to Power-BI Desktop

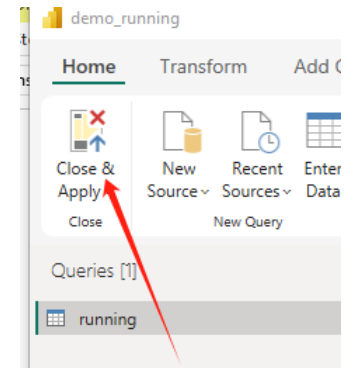

1. Open the demo template, go to the Data tab, right-click, and select "Edit Query."

2. Click "Data Source Settings" and update the file path to link with the converted *.csv file.

3. Click "Close & Apply" to refresh and complete the process.
